

Call for Participation

We invite you to join us in **11th International Conference on Information Theory (IT 2022)**

This conference will provide an excellent international forum for sharing knowledge and results in theory, methodology and applications of Information Theory. The goal of this conference is to bring together researchers and practitioners from academia and industry to focus on understanding modern Information Theory concepts and establishing new collaborations in these areas. Authors are solicited to contribute to the conference by submitting articles that illustrate research results, projects, surveying works and industrial experiences that describe significant advances in the areas of Information Theory and applications.

Highlights of IT 2022 include:

- 15th International Conference on Network Security & Applications (CNSA 2022)
- 9th International Conference on Artificial Intelligence and Applications (AIAP 2022)
